Abortionist Gets Life Imprisonment

Edmonton Man Sentenced After 10-Minute Trial

A mild-mannered little man named Robert Young, with a self-described "medical mind" was sentenced to life imprisonment when he pleaded guilty in Edmonton police court today to a charge of procuring an abortion.

His sentence came as a 17-year-old gird was pronounced "out of danger" after spending almost a month in an Edmonton hospital in a critical gondition as the "result of an abortion."

His sentitude two previous control of the manuel identical to this FROST BLAMED of the malmost identical to this FOR DELAY.

Merely Spectacular

The tragic folly of the Royal Canadian Mounted Police in setting up a traffic trap at Nisku on the two-lane Calgary Trail at one o'clock last Saturday morning urgently demands a thorough investigation of attraffic law enforcement throughout the provinces

tratic law enforcement throughout the provinces of this absurd traffic inspection indicate that the RCMF was more interested in doing something spectacular than in securing traffic safety. When my securing traffic safety. When the proft spectacular there must always be a suspicion that these grandstand plays are designed to cover up inefficiency. Certainly the hazards involved in this

stand plays are designed to cover up inef-ficiency.

Certainly the hazards involved in this scenational bit of police exhibitionism were totally unnecessary and out of all propor-tions of the proposition of the proposition of the total proposition of the proposition of the hard at the place where the RCMP was playing cops and robbers.

A passenger car came up behind with-out seeing the stop signals and run into the killed. Two were injured companie were killed. Two were injured to the proposition of the The very fact that these six people, all sober, respectable and responsible citi-

sens, did not see the stop signs, is excellent prima facie evidence that the signs were ineffective and insufficient.

When 'n train makes an unscheduled stop, railway law requires that flares be set alight as much as a mile back from the rear of that train and shead of it.

In some of the American states, it is obligatory to set red flares as much as two boligatory to set red flares as much as two. But the RCMP in Alberta blitchey blocks off a little two-lane highway in the dead of night and expects traffic, permitted to travel at 45 miles per hour, to be warned by a roadside sign and a few flashlights.

ted to travel at 40 mises per nour, to we warned by a roadside sign and a few finsh-lights.

In most charitable view of this fatal and rideulous traffic trap is that it revealed incredibly poor judgment on the part of the RCMP.

What confidence can the Alberta publichave in the traffic enforcement efficiency of a body that, in a flamboyant show of traffic subhority, actually creates conductive to the confidence of similar folly can be laid to the RCMP's door?

It is time for the provincial government to investigate the entire traffic situation in Alberta.

This sort of lethal nonsense is not to be tolerated.

Advantages of Edmonton Airport

The hope that Edmonton's midtown airport may not have to be moved for some time, voiced by Oliver C. McIntyre, president of the Chamber of Commerce, is one that will be echoed by those who are familiar with air travel.

184 with air travel.
Flying hazards may eventually compel the relocation of the site. Certain accidents and near accidents caused by aircraft coming in low for a landing have created a demand that the airport be placed at some more remote point in or more completed to the compensation of the com

near the city.

Certainly nearby citizens and homes are entitled to security.

But every device for achieving that security should be exhausted before the city has to fall back upon moving the site. The truth is that the proximity of the airport to downtown Edmonton is one of

this city's greatest assets as an aviation centre.

Air travel suffers a great handicap from the necessity of placing airports a long distance from the centre of cities.

The control of the control of cities are not control that, on short trips, the time saving over rail travel is eaten up in going to and from the landing fields.

For example, it takes a full, hour and a half to ride from Malton airport to the centre of Toronto.

It requires about 75 minutes to get from LaGuardia air field to the Grand Central similarly far away from central Chicago.

Edmenton's airport, five minutes by cab to the heart of the city, is commended constantly by air travelers and is eminently suitable to a city on the chief air routes of the world.

Astonishing View of the Albertan

Astonishing View of

The charge brought by the Calgary Albertan that the B.C. law coclety is guilty of "political discrimination" in refusing to admit a Communist to the B.C. bar is ahear demagoguery.

The B.C. law society ruled, and the provincial appeal court upheld its ruling, that this avowed Communist could not be admitted to the bar because the essential oath of allegiance to the King could not be taken "in sincerity and intellectual honesty" by a Communist.

The Alberta sees this stand only as an autocratic attempt by the legal profession to maintain itself as a closed corporation and says:

The B.C. law society ruled, and the provincial appeal court of law. He is part of that court of law.

A barrister does not merely practice before a court of law. He is part of that court of law.

Say hydige who sits on the bench He is a court officer, not a court suppliant.

And because judges are "His Majesty's indiges" and derive their autoprity, in effect, from royal warrant, barristes are also connected at any other time to prevent a Negro or a Conservative or a Jew from becoming a lawyer."

The parallel does not exist. And it is safery the prevent of the King.

Calgary Diary, Chapter Two

CALGARY, May 3—Out of bed, just in time to
snatch some lunch in the company of Johnny McDonald,
one-time Edmonton sports executive, and a number of
Calgarians who know (they say) all about the "Royal
Copeland deal" ... and that \$9,000 salary the ex-Torento
Aryo Dack figures to command begins to make sense long
Aryo Dack figures to command begins to make sense long
of ligame, told Stampeder president Tom Brook to "get any
player you want and TII make up the difference" ... Copelland was the "any player", as it turned out, and the
"difference" between what Stamps' ordinarily might be
expected to lay out for a Copeland and the nine G's he's
salated to get could be upwards of \$4,000.

Lunch over, a jaunt out to the race track, where
I promptly ran into such well known prairie turf
figures as Les Lear and "spaul" Jurphy.

Lacer says "howdy" and goes right on showing his
tring to a young fellow and a couple of "babes", who
looks the they zern timesing even a fettlock.

Spud Murphy Talks 'Some'

Spud Murphy Talks 'Some'

Spud Murphy Talks 'Some'

Murphy, founder of the peewey hockey movement in
the West, is much more communicative. He was "town
below" at Bay Meadows and other California tracks, until
just before Christmas. "Get me a couple of good ones,"
Murphy says. Then he names Namby Pass and Long
Green as the additions to his Westmourt Stable.

"There was 10s degrees difference in temper Pass
nearly died," Murphy reminisced. "Caught cold right off
and we had a real battle to save him."

Murphy wants to know how the grandstand is coming at Edmouton, is surprised and disappointed to hear
at the same of the same of the season. They're
going to put two shifts to work one state of the season is the nights get a little warmer. Wants get finished
up by Augast," he says.

Custon Hoft, who works as a patrol judge on the

up by Augast." he says.

Clayton Holf, who works as a patrol judge on the prairie circuit, drops into the task room. . "Say hello to Alex Haler," he saks. . Basic was town, where I run into Jack McGill. He Blees Mariborton taske it all, thinks they might go north to Edmonton for the fourth game with a \$9 record.

Barney Adair, Vince Krebel and Bill Dockery, members of Varsity Golden Bears hockey team, come along. They're down this way on a tour sponsored by an oil company. Everything found, too.

Horsemen Like Your Host

Horsemen Like Your Host

Thence to the Sun room of the Palliser, where the Stampeder football club is playing host to executives of the Stamp and Mariboro teams, as well as members of the press and radio, Leo Murphy (seems there's nothing but Murphys in this town). Stamp PRO, was master of expension of the stamp and the stamp of the stamp of

By Jack DeLong

Hurrah for Courtesy

Rancid rhyme inspired by announcement courtesy drive now underway in Edmonton.

Be nice to people all the time En when your blood doth boil. That gup who walks with humb May own a lot of est.

Hegant Elsie, my awarite waitress, is very much interested in the courtiesy drive.

Elsie says she's sure courtesy must be the most valuable cummodify in the world because "everybody seems so scared to use it."

Chap who gave his name as Harry Kiddle, phoned to remind me he was introduced on the stage when Gracie Fields was here in November of 1941.

Arry sochs he as a former semi-professional English He came to live in Edmonton in 1945 and is in the interior decorating business. He was planning to call on Gracie again this time. I hope 'Arry made it.'

Note from Cameron MacKinnon to Jack White: "I'd like to see you soon, Jack."

Story of Courage

WOOLWORTH'S

Summer fashion forecast of eminent designers gives us "just fair-to-middling" gals a high hope for beauty and fame this year.

A high nope for beauty and rame this year.

Happy days are aliesed as far as summer fashions go. Everybody agrees that the clothes never looked prettier. They look new and fresh and good to wear—not too radically different, definitely "this summer" in character.

What will the stores across the country be offering for summer? First of all, there are cottons in everything from dress to sportswear, for everything from town dresses (the dark colors in fine broadcloths look good in these) to play clothes.

Sheers make up another big part of the fabrics story. Never were there so many sheers—voiles, organdies, dotted swisses, tissue ginghams, chiffons, to be specific about just a few.

a few.

They come in one-piece sheath or shirt-waist dresses; in shirt - and - skirt schemes
h look like dresses; in over-skirts; in coats; even in little jacket-tops which are the
est excuse of a cover-up.
